

名称：High Frequency Aluminum Welded Tube 高频焊铝管

High Frequency Welded Auto Water Tank Aluminum Tube 高频焊汽车水箱管						
Material Alloy 材料合金	3003、4343/3003/7072					
Product Dimension(m) 产品尺寸	Width(mm) 宽度	16	18	22	26	32
	Thickness(m) 厚度	2	2	2	2	2
	Wall Thickness(m) 材料壁厚	0.28-0.38mm				
State 状态	H14					

High Frequency Welded Auto Intercooler Aluminum Tube 高频焊汽车中冷器管						
Material Alloy 材料合金	3003、4343/3003/4343					
Product Dimension(m)	Width(mm) 宽度	36.6	50	50	62	64

m) 产品尺寸	Thickness(m m) 厚度	10.1	8.08	10.1	10.1	8.08
	Wall Thickness(m m) 材料壁厚	0.38-0.50mm				
状态 State	H24					

Advantages of TaiXing high frequency welded aluminum tubes

- 1.High quality brightness finish and aesthetics, anti-corrosion, anti-oxidation.
- 2.Very tight tolerance levels on diameter, thickness and length, tidy and smooth section, no burr.
- 3.A variety of strong alloys with specific properties offered
- 4.Excellent weight - strength ratio: thin tubes with extremely high mechanical values, high strength, good toughness.
- 5.Smooth and reliable processing. Radiator tubes can be custom-made to meet your special requirements.
- 6.Embossed patterns are possible for aesthetic or functional use
- 7.100% recyclable product
- 8.The weld is always 100% Eddy Current inspected

泰星高频焊管优点：

- 1.高光洁度和美观，抗腐蚀，抗氧化。
- 2.直径，厚度和长度低公差，整齐，切面光滑，无毛刺。

- 3.多样特定属性强度合金
- 4.优秀的重量-强度比：具有极高的机械性能，强度高，韧性好。
- 5.稳定可靠加工. 管散热器可定制，以满足您的特殊要求。
- 6.压花图案美观或功能使用
- 7.100%可回收的产品
- 8.100%涡流检查

Main equipment :

1. High frequency welded tube mill.
2. Hot extrusion tube mill.
3. Cold drawn tube mill.
4. Projection measuring instrument, physic drawing High precision measuring equipment.

主要设备：

- 1.高频焊管机。
- 2.热挤压管机。
- 3.冷拔管机。
- 4.测量投影仪，物理绘制高精度测量设备。

Application: Auto water tank, Heat exchanger, aluminium radiator, inter-cooler, evaporator, etc

用途：汽车水箱，热交换器，铝散热器，中冷器，蒸发器等
